Re: Autism Poland Association's full membership to Autism-Europe

Dear Mrs. Wokacz-Zaborowska,

On June 19, 2021, the Annual General Assembly of Autism-Europe approved the nomination of **Autism Poland Association as full member**. I would like to congratulate you on this election and welcome you in our international network.

Autism Poland Association's membership number is 21/62/A. I would kindly ask you to use it in all administrative correspondence with us.

Please find enclosed an invoice related to your membership fee for the year 2021. Please include your membership number as communication of your payment. All memberships are based on the calendar year and run from January to December.

Thanks to your support and cooperation, Autism-Europe will continue to voice the concerns and expectations of autistic people and their families at the European level for the full realisation of their rights, to promote the exchange of experiences between its members and to foster more understanding of autism in society. We are delighted to count your association among our members and to strive together to improve the lives of people on the autism spectrum in Europe and beyond.

With best regards,

Aurélie Baranger
Director of Autism-Europe
